Chennai, Tamil Nadu, India — 8925025737
adithiyamuruganks@gmail.com — LinkedIn — Portfolio — Github

PROFESSIONAL SUMMARY

Aspiring App Developer with expertise in Flutter and REST API integration. Specialized in building responsive, high-performance mobile applications with seamless backend connectivity. Dedicated to delivering innovative cross-platform solutions that enhance user engagement.

EDUCATION

B.Tech: Electrical and Communication Engineering

Vellore Institute of Technology (VIT), Chennai

Expected Dec 2029

High School: Computer Science

Sboa School & Junior College, Anna Nagar

Dec 2025

PROFESSIONAL EXPERIENCE

Founder and CTO

Zyphra Vision

Current

Leading product development, technical architecture, and innovation-focused solutions.

App Developer

MediaTrix

Current

Developing scalable applications and contributing to digital product experiences.

PROJECTS

- **She Secure** – Women's safety application with emergency assistance and real-time protection features.
- **Memora** – Minimal flashcard app for quick card creation, review, and efficient memory recall.
- **Mediculture** – Smart healthcare app for medicine delivery, doctor consultations, and emergency support.
- **VisionPay** – Flutter-based payment app enabling hands-free transactions using voice, gestures, and biometrics for visually impaired users.

LEADERSHIP & CONTRIBUTIONS

Vice Chairperson

ACM VITC, Chennai(Best Technical Chapter Award 25-26)

Oct 2025 – Current

Led club operations, strategic planning, and team coordination.

Social Media Lead

Animation Club VITC, Chennai

Mar 2026 – Current

Managed social media creatives, branding, and digital engagement strategies.

Volunteer – Hour of AI

VIT Chennai

Dec 2025

Assisted in managing and guiding government school students during AI game development workshop.

KEY ACHIEVEMENTS

- **3rd Prize – Avinya 2.0 Hackathon (SJC Institute of Technology, Karnataka):** Built an AI-powered rescue route optimization system for disaster management.
- **3rd Prize – THREX Hackathon (SRM Institute of Science and Technology, Kattankulathur):** Developed a wearable cap translating hand signs into real-time audio for deaf and mute communication.
- **2nd Prize – Vvortex Hackathon (VIT Chennai):** Built *VisionX*, AI smart glasses for blind navigation and obstacle detection using computer vision.
- **1st Prize – Noctivus Tech Symposium (Velammal Engineering College):** Recognized for exceptional user interface design skills and an innovative approach to digital problem solving.
- **1st Prize – Torq'25 (Loyola-ICAM College of Engineering and Technology):** Conceptualized and pitched an innovative safety application addressing critical real-world safety concerns for women.
- **3rd Prize – Hackathon 2K25 (St. Joseph's College):** Developed a functional mobile application prototype for women's safety in a competitive environment.
- **3rd Prize – Head-to-Head Coding Battle (Xplore'25):** Successfully cleared technical rounds involving complex algorithmic tasks.

TECHNICAL SKILLS

- **Languages & Frameworks:** Flutter, Python, OpenCV, Dart, C++, MERN Stack.
- **Design & Creative:** UI/UX Design, Graphic Design, 3D Animation (Blender), Photoshop, Figma.
- **Professional:** Team Leadership, Idea Pitching, Brand Strategy, Problem Solving, App Development.
